Architecture	Planning, designing and constructing buildings.																																									
City	A large town																																									
Climate	The weather conditions that are typical of a place																																									
Coastal	An area of land close to the sea																																									
Continent	A very large area of land that consist of a number of countries.																																									
Export	Goods that are sold to other countries																																									
Harbour	A sheltered port																																									
Human features	Features of land that have been made by humans																																									
Island	A piece of land that is completely surrounded by water.																																									
Landscape	What you can see when you look across an area of land																																									
Mountain range	A series of mountains connected in a line																																									
Peninsula	A piece of land almost surrounded by water																																									
Physical features	Natural features of land																																									
Port	A harbour area where ships load and unload goods and passengers																																									
River	A large natural body of fresh water that flows into the sea or lake																																									
Tourist	A person who visits a place for interest or pleasure.																																									
Weather	The condition of the atmosphere at a particular time																																									
Vegetation	Plants, trees or flowers																																									
Human Features																																										
<p>Greece has many villages, towns and cities. Athens is a port city.</p> <p>Greece has many famous structures. Main exports are fish, oil and petrol.</p> <p>Greece has many famous ancient structures, such as the Acropolis and the Delphi.</p> <p>Many tourists visit Greece, especially Athens and the many islands.</p> <div style="text-align: center;">  </div>																																										
Physical Features																																										
<p>Greece is a mountainous country with a very long coastline.</p> <p>Greece can have earthquakes, floods and droughts.</p> <p>Greece has thousands of islands.</p> <div style="text-align: center;">  </div>																																										
<p>By the end of this unit, I will know:</p> <ul style="list-style-type: none"> Greece is in southern Europe. The capital of Greece is Athens. Greece has thousands of islands It is one of the most mountainous countries in Europe. The highest mountain is Mount Olympus. Greece is a popular tourist destination and has many World Heritage sites. It has a landscape of mountain ranges, forests, beaches and rivers. The climate of Greece can be hot and dry. In the north, it can be cold in the winter.
